Two microphones ensure flawless speech quality
in every situation.

LARGE COLOR DISPLAY

2.4-inch color display
for an clear overview

USABILITY

slide switch enables
easy, intuitive
operation

ROBUST HOUSING

drop tested from 1.5m,
alcohol wipe resistant

DOCKING STATION

for fast charging and easy file
sharing via USB

TWO-MICROPHONE SYSTEM

for stereo or highly directional recording

*Enjoy greater efficiency and more time
for the things that are important to you.*

CAPTURE EVERY MOMENT IN HIGH QUALITY

Two-Microphone System designed to record human voice to get your dictation transcribed easily with and without speech recognition.

DOCUMENT CONFERENCES IN STEREO

The two microphones into a 90° layout enable high quality recording in a realistic stereo feeling. You can then quickly and easily share the MP3 file with others.

DICTIONATION MODE FOR QUIET ENVIRONMENT

No matter from which angle you speak into the device, the omni-directional microphone picks up your voice accurately. In this mode, you can hold the device in your hand any way you like.

DICTIONATION MODE FOR NOISY ENVIRONMENT

The main microphone will be recording in a high directionality mode together with noise cancellation in order to focus on the voice. The noise from the surrounding will be suppressed to minimum.

The Olympus Dictation Management System (ODMS) software allows you to design your own transcription workflow. The seamless interface to Dragon NaturallySpeaking* by Nuance optionally boosts your transcription.

*must be purchased separately

EASY AND SECURE MANAGEMENT

with ODMS software

PROTECT YOUR FILES

256-Bit AES
Encryption at a high security level.

With the Data Loss Prevention the device can be operated in a read-only mode.

Secure your dictation device with a PIN.
